

OECD → ESI-2 subgroup crosswalk
cell = share of each OECD group's matched substances; row n = total matched substances

OECD group

SFAs and derivatives (n=52)	100%															
Perfluoroalkyl carboxylic acids (PFCAs), their salts and esters (n=48)			98%											2%		
Perfluoroalkane sulfonyl-based nonpolymers (n=47)		15%				49%					6%					30%
Perfluoroalkane sulfonic acids (PFSAs), their salts and esters (n=44)				100%												
Perfluoroalkanes & aromatics (n=35)									46%	37%						17%
Perfluoroalkane sulfonyl amides/amido ethanol (x)FASA/Es and other alcohols (n=25)		100%														
N:2 fluorotelomer alcohol, phosphate esters (PAPs) (n=23)					100%											
N:2 fluorotelomer-based non-polymers (n=23)	70%															30%
Perfluoroalkane sulfonyl (meth)acrylates (n=22)		100%														
N:2 fluorotelomer-based silanes (n=21)		5%					95%									
Fluoropolymers (n=20)													30%			70%
HFCs and derivatives (n=18)	44%									6%						50%
Perfluoroalkane sulfonyl acetic acids & esters (n=17)		100%														
N:2 fluorotelomer-based (meth)acrylate (n=16)	100%															
N:2 fluorotelomer alcohols (n:2 FTOHs) / thiols (n=16)	88%															12%
Other (61 groups) (n=242)	15%	3%	4%	2%				7%			4%	5%	2%	4%	4%	49%

row share

Fluorotelomer-based substances with only C, H, and O
PASf-based substances with only C, H, and O
PFCAs
PFSAs
Fluorotelomer-based substances with P
PASf-based substances with N - no acid - starts with NH
Fluorotelomer-based substances with Si
Perfluoroalkylether carboxylic acids (PFECAs)
Aliphatic perfluoroalkanes
Mono-ring perfluorocarbons - no acids
PASf-based substances with P and O
Hydrofluoroether
Fluoropolymers - copolymers
PACf-based substances with only C, H, and O
PFAAs with P
Other (46 groups)
